

**Invitation to participate in the IV International Scientific Conference
“Agriculture of the XXI century – problems and challenges”
Poland, Krzyżowa, March 26-27, 2019**

It is our great pleasure to invite you to participate in the III International Scientific Conference “Agriculture of the XXI century – problems and challenges”, which will take place on 26-27 March 2019 at the International Conference Centre, Krzyżowa (Poland), 50 km from the beautiful city of Wrocław.

Contemporary agriculture is a fast growing and developing industry sector. The subject of the conference covers issues affecting the development of modern technologies, systems and solutions used in agriculture, as well as the production of healthy food. The conference will focus on issues related to livestock production, rural area development, and reviews of the current state of agriculture in Europe. Agroenergetic-related topics, including biogas, bio-fuels, solar and wind energy, will also be an important focus of the conference. This conference will facilitate the exchange of ideas as well as the formation and strengthening the collaborations, both scientific between universities, scientific institutions, as well as private entrepreneurs, in terms of the current trends in the agricultural and food sector. It is also an opportunity to present new and interesting scientific research, promote scientific discussion, develop future or existing projects which can lead to interdisciplinary projects and publications, and renew friendships.

Over 110 participants from Poland, Germany, Ukraine, the Czech Republic, Austria, Turkey and Slovakia took part in the last (2018) International Scientific Conference entitled “Agriculture of the XXI century – problems and challenges”.

We would like to invite all established researchers and students to take part in one of the leading Scientific Conferences in the field of agriculture!
